MVP Design Selection

BaZi (Four Pillars of Destiny) Birthday Selector Apps

Three designs for you to choose — each with a different birthday picker UX

How to use this document:

1. Review each design's picker + result screenshots
2. Compare pros/cons of each birthday selector approach
3. Choose your preferred design for production build

Generated June 2026

Design 1 — Chronograph

Circular SVG Sector Dials · Light Gold Theme

Chronograph

Premium watch-inspired circular sector dials

Theme: Light beige + gold accents

Picker: 4 tap-to-select SVG sector dials (2x2 grid)

[V] Intuitive — tap a sector to select

[V] Visual feedback with gold bezel highlights

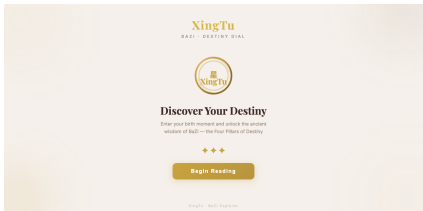

[V] Elegant light theme suits mainstream users

[V] Year navigation with prev/next arrows

[!] Requires multiple taps for far-off years

[!] Less efficient for very wide date ranges

[!] SVG sectors may be small on mobile

Design 2 — Horizon

Momentum Scroll Sliders · Dark Cosmic Theme

Horizon

Smooth horizontal momentum scroll sliders

Theme: Dark cosmic (#0a0a1a) + gold accents

Picker: 5 horizontal sliders with inertia scrolling

[V] Fast — flick to scroll through 200+ years

[V] Natural momentum feels like iOS picker

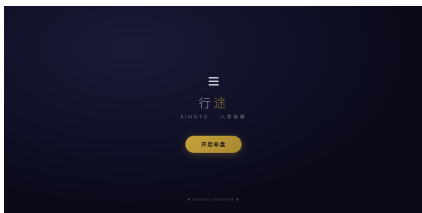

[V] Best for large year ranges (206 years)

[V] Includes timezone selector

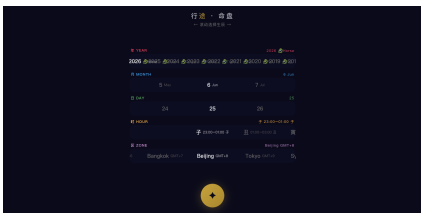

[!] All sliders visible at once = compact items

[!] Touch-and-drag may feel less precise

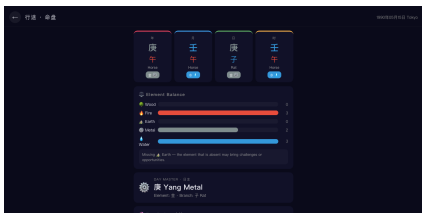

[!] Dark theme might not suit all users

Design 3 — Classique

Scroll Wheel Columns · Warm Amber Theme

Classique

Traditional scroll wheel columns (iOS-style)

Theme: Warm amber (#2a1b0e) + gold accents

Picker: 4 vertical scroll wheel columns

[V] Familiar iOS/Android date wheel pattern

[V] Smooth scrolling with inertia

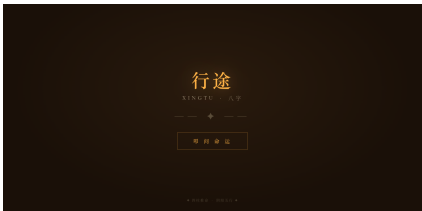

[V] Warm, traditional Chinese aesthetic

[V] Large column widths for readability

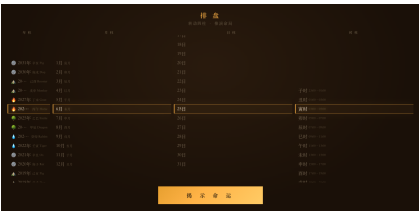

[!] Vertical scroll takes more vertical space

[!] Less distinct per-design identity

[!] Year range can be slow to scroll through
