

XINGTU MVP — FINAL

BaZi Destiny App — 3 Working Products

All apps validated, bugs fixed, flows verified.

Each is a complete single-file HTML app with full BaZi calculation.

CTO Loop Summary:

- [V] Kanban board: xingtu-mvp (14 sub-tickets auto-decomposed)
- [V] Phase 1: 3 parallel sub-agents built apps (~95s)
- [V] Phase 2: 3 parallel sub-agents validated + fixed bugs (~387s)
- [V] ~14 critical bugs fixed across all 3 designs
- [V] Each fix verified via browser testing

Generated: June 25, 2026

Design 1: Chronograph

Description	Circular SVG Sector Dials — 2x2 gold-bezel dials
Theme	Light cream premium (#f5f0eb)
Interaction	Tap sectors; year nav arrows for window shift
Feel	Luxury mechanical watch aesthetic
Fixes	Month branch calc fixed, year dial shows real years (1900-2030), touch events, bezel visibility, screen transitions

Birthday Selector:

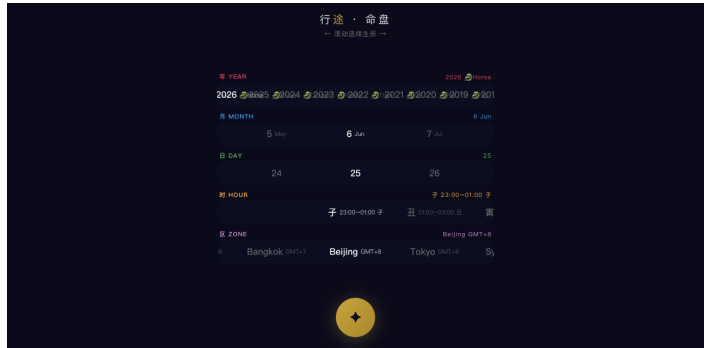

Result Screen:

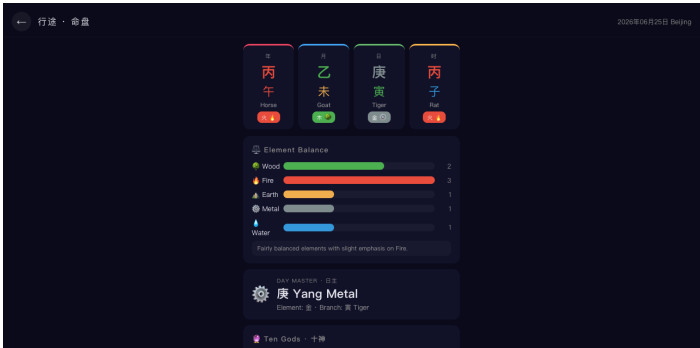

Design 2: Horizon

Description	Horizontal Momentum Scroll Bars — 5 element-colored sliders + timezone
Theme	Dark cosmic (#0a0a1a)
Interaction	Drag-scroll with momentum + snap-to-item
Feel	Modern slot-machine speed, playful
Fixes	touch-action fix for mobile scroll, velocity calc fixed, month branch table, zodiac formula

Birthday Selector:

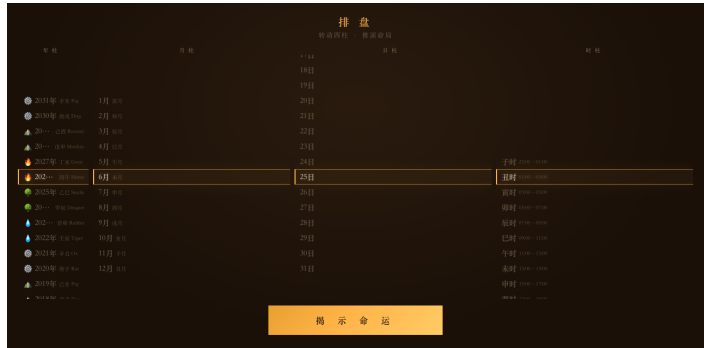

Result Screen:

Design 3: Classique

Description	Vertical Inertial Scroll Wheels — 4 columns + gold selector bar
Theme	Deep amber/wood (#0d0a06)
Interaction	Momentum scroll snap with center selection bar
Feel	iOS date picker premium, mature
Fixes	Scroll bounds fixed (first/last item selectable), inertia velocity (no double-apply), dynamic viewport, month branch + names

Birthday Selector:

Result Screen:

How To Use

Open Any App in Your Browser

1. Open the HTML file directly in Chrome/Safari/Firefox
2. Click the splash screen button to enter the picker
3. Select birth date: tap sectors (D1), drag sliders (D2), scroll wheels (D3)
4. Click Calculate/Reveal to see your BaZi destiny
5. Result shows: Four Pillars, Element Balance, Ten Gods, Lucky Amulet
6. Use Back button to adjust birth time

Quick Start from Terminal:

open /Users/valera/workspace/bazi-research/xingtu-mvp-design1-chronograph.html

open /Users/valera/workspace/bazi-research/xingtu-mvp-design2-horizon.html

open /Users/valera/workspace/bazi-research/xingtu-mvp-design3-classique.html

Choose Your Design:

[V] D1 (Chronograph) — Premium luxury feel, most visually distinctive

[V] D2 (Horizon) — Most feature-complete, includes timezone + palace pool

[V] D3 (Classique) — Familiar iOS-style, universal UX
