2. Amulet Supplier Research

Tier	Materials	Wholesale COGS	Retail	Margin
Budget	Stainless steel pendant + pouch	\$2.00	\$15	86.7%
Mid	Gold-plated + velvet pouch + card	\$5.00	\$25	80.0%
Premium	Natural jade/gift box	\$15.00	\$45	66.7%

Best match: seami-jewelry — Chinese+English name pendants at \$3.46-\$4.15/piece

Lead time: 14-30 days (production 7-15 days + shipping 7-15 days)

MOQ: 10-100 pieces per design (low enough for initial test)

Market gap: No existing biz combines BaZi name gen with amulet fulfillment

3. Financial Model — Amulet Business

Metric	Pessimistic	Moderate	Optimistic	Break-even(\$30k)
Traffic/mo	5,000	15,000	50,000	-
Orders/mo	2.5	27	263	-
Monthly net	\$30	\$476	\$4,756	-
Year 1 net	\$365	\$5,709	\$57,071	-
Break-even	Never	5.25 yr	6.3 mo	-

Key unit economics (blended 40/40/20 mix):

Blended ASP: \$25.00 | COGS: \$5.80 | Stripe: \$1.03 | Gross: \$18.18/order

Zero LLM costs (local engine) | Fixed costs: ~\$17/mo

Critical: At Moderate (15k visitors), net is only \$476/mo — not a business.

At Optimistic (50k visitors): \$4,756/mo net, 6.3 months break-even.

Marketing spend is dangerous below 50k visitors — wipes out profit.

4. Competitor Landscape

Category	Competition	Best Rated	Opportunity
Chinese Name Gen	None	OwnHan, NameGen (0 rates)	Blue ocean — first mover
BaZi Astrology	Low	FateTell 4.9* (80)	Demand exists
ZWDS English	None	1 app at \$29.99, 1.0*	Huge gap
Western Astrology	High	Co-Star 4.8* (205K)	Proven paid model
Amulet+Pendant	None	No BaZi+amulet combo	Category innovation

Competitive advantage: Zero LLM costs + physical product differentiation.

No competitor combines BaZi name generation with amulet fulfillment.

5. Verdict & Next Steps

Conditional Green Light

Go if: You can drive 50k+ visitors/month to the name generator (content marketing)

No-go if: Traffic is below 15k visitors/month (business won't work)

Key risk: Conversion rates are hypothetical — need MVP data

Biggest win: Zero competition + confirmed COGS at \$2-5/unit

Immediate Next Steps (This Week, \$0 Cost):

1. Start PostHog — free cloud analytics, instrument HTML prototype
2. Post 1 TikTok on 'weird English names + Chinese astrology' — test hook
3. Join 3 TG diaspora groups — offer free name checks, build beta list
4. Contact seami-jewelry — get quote for 50 custom name pendants
5. Write MVP scope doc (questionnaire-xingtu-filled.md is foundation)
6. Expand name DB to 200+ entries (1-2 days, no dependencies)
7. Add daily BaZi fortune push to Telegram bot (retention mechanic)
